Here are some questions from reporter Peter Quinn with ABC News and our proposed answers. Please advise.

Q: How many wells have been sampled to date?

**PROPOSED ANSWER:** By the end of the day today, EPA expects to have completed sampling at 11 homes.

Q: How often are the water deliveries?

**PROPOSED ANSWER:** Water deliveries continue to be daily until we get a better idea on how much water each home needs.

Q: Are we doing split sampling with PADEP and Cabot?

**PROPOSED ANSWER:** Yes, we are conducting split sampling with PADEP and Cabot as long as the residents agree to it. It is up to the residents to decide who they will allow on their property to conduct sampling.
